UAC Digital | Let's Chat – Early Entry

17 June 2021, 6pm

Online

While the ATAR is still the main selection tool used by most unis, there are other ways for you to show that you're ready to succeed at uni. Many institutions have one or more early offer schemes for Year 12 students. Through these schemes, institutions assess you using criteria other than (or in addition to) your ATAR.

We'll give you an overview of the Schools Recommendation Scheme (SRS) and discuss:

- how to apply
- whether you're guaranteed early entry if you apply
- other universities' direct early entry schemes
- how many early entry schemes you can apply for.

Find out more: <https://uacdigital.easywebinar.live/earlyentry-43>

UAC Digital | Let's Chat – Business, Commerce and Economics

23 June 2021, 6pm

Online

In this session we'll give HSC students and their parents the information they need when applying for a Business, Commerce or Economics degree. We'll be joined by university experts to discuss:

- which HSC courses are recommended for these degrees
- available degrees and majors
- entry requirements
- the differences between commerce and economics degrees
- what to do if you don't meet your dream course's entry requirements.

And we'll give answers to the most commonly asked questions!

UOW | Year 12 Online Information Evening

Tuesday 29 June 2021, 6pm

Online

UOW information evenings are designed for students and parents who would like to know more about studying at UOW.

You probably know what degree you're interested in, the ATAR you need – and we're more than happy to go through this with you – but we know that you'll need to know where you're going to live, how much it will cost, how will you make friends and more. We know because we asked the exact same questions when we were in year 12!

In this virtual session we will also talk about:

- UOW Early Admission
- Your ATAR and selection rank (and what it means)
- Important dates and key things to remember for UAC applications
- Our Scholarships
- Opportunities for high-achievers
- UOW's global sports programs
- Student accommodation
- The degrees and opportunities available for you at UOW
- Your options if you don't get the ATAR you need
- Clubs & Societies and Student Life

NECA Electrical Practice Tests

NECA have put together resources to help Students prepare for Aptitude tests in the electrical Industry.

To be an electrician requires you have to be able to make calculations relating to electrical design. It is important to have a good understanding of sums, algebra, geometry and trigonometry. Working with Electrical can be hazardous when miscalculations occur.

Geometry comes into play when calculating cross sectional areas of cables and algebra is used when calculating current (Amps) and electrical loads.

Trigonometry comes into play when you start to look at capacitance and magnetism.

Below we have listed a number of link to Aptitude tests, we strongly recommend you practice these tests prior to sitting your aptitude Exam.

Bell Shakespeare are partnering again with leading Shakespeare academics from the University of Sydney to deliver a series of HSC Shakespeare Seminars via Zoom.

In these interactive online sessions, Bell Shakespeare Resident Artist in Education, Huw McKinnon, joins University of Sydney academics to discuss and dissect each play, with The Players from Bell Shakespeare performing key scenes and soliloquies. Part performance, part interactive seminar, these sessions are designed to directly link to HSC modules and give students the edge in upcoming exams.

Combining rigorous literary analysis with illuminating dramatic insights into the plays, sessions will be presented in an approachable, conversational format showing the interplay between text and drama.

Students and teachers will be encouraged to ask and discuss questions live, connecting them with Bell Shakespeare artists, leading University of Sydney academics, and other students completing their HSC.

Discover your Path to Physiotherapy

Physiotherapists play an important role in keeping people moving, whether it be for maximum performance in athletes and people with chronic health conditions. They also have an impact on patients who require rehabilitation after events such as surgery or a catastrophic accident. It can be rewarding to see patients reach their goals.
