

Parents and caregivers,

Macbooks currently with students in Year 12 will be at the end of lease in 2021. As per the iLearn agreement families now have two options:

Option A - RETURN the unit, no payment will be required. Devices should be returned damage free with no graffiti or stickers. Insurance forms will be issued for units that have damage and students will be asked to clean units if they have graffiti or stickers. The Charger must also be returned with the unit.

Devices **MUST** be returned to E15 at the conclusion of the students final exam. Failure to do so will see the unit locked

Option B - Pay the residual amount on the unit and take ownership of the device. The agreed residual amount is \$450. Payment must be made by the latest Friday 29th October 2021, no payment will be accepted after this date and the laptop will need to be returned. Payment options are listed at the bottom of this page. **(This option can only be selected if all school fees are up to date)**

At the conclusion of the students final exam, he **MUST** bring the unit to E15 where iAssist will remove any school licensed software and remove any management software, once completed it will be returned to the student. iAssist will also provide the appropriate administrator credentials for the device. Failure to do this will mean the user will not have administrative access to the laptop.

Payment options are below.

To nominate

Please complete an online option form which can be found by clicking the following link. This must be done by Friday 25th September.
